Adobe® Acrobat® 9 - New PDF Portfolio Layouts

Welcome to the Adobe Acrobat 9 – PDF Portfolio Layouts ReadMe, which contains essential information on how to install the updated and new Acrobat 9 PDF Portfolio layouts.

For Adobe Acrobat 9 product support information, see:
http://www.adobe.com/go/acrobat_support

These layouts are available for installation:

- New layouts:
  - Grid with File Preview – Adds quick previews to Basic Grid
  - Grid with Sidebar – Adds quick navigation to Basic Grid
  - Grid with Size Options – Adds description and icon sizes to Basic Grid
  - List with File Preview – Adds quick previews to List View
  - Sliding Row with Sidebar – Adds quick navigation to Sliding Row
- Updated layouts:
  - On an Image – Arrange files on top of any image
  - Revolve – Bring one file into focus at a time
  - Sliding Row – Display files in a row

System Requirements

Adobe Acrobat 9 Professional or Pro Extended must be installed on your system before you install these PDF Portfolio layouts.

Before Beginning Installation

You should currently have the PDF Portfolio Acrobat9Layouts_efgj.pdf open in Acrobat 9. Before starting installation, you may want to open this ReadMe file in a new Acrobat window by clicking the Open button, so that you can see these instructions as you install the layout files.

Installation Instructions

To install for Windows® XP

1. First make sure you can see hidden files and folders on your computer:
   a. On the Tools menu in Windows Explorer, choose Folder Options.
   b. Select the View tab.
   c. Under Hidden files and folders, make sure Show hidden files and folders is selected (click it if it is not).
   d. Click OK.

2. In the Acrobat 9 PDF Portfolio window, click the Home icon in the toolbar to return to the home view of all folders.
3. Find the folder for the language you want to install, and double-click it to open the layouts folder. The language must be the same as your Acrobat 9 installation.
4. Hold the Ctrl key on your keyboard and select all .nav files in the layouts folder.
5. Go to the Start menu on your computer and select My Computer.
6. Browse to this folder location:
   <system drive>:\Documents and Settings\<username>\Application Data\Adobe\Acrobat\9.0\Navigators
7. If you do not see the Navigators folder, create a new folder called Navigators.
8. Drag the selected .nav files from Acrobat 9 to this location in Windows Explorer.

To install for Windows® Vista

1. First make sure you can see hidden files and folders on your computer:
   a. Click the Start button.
   b. Click the Control Panel option.
   c. When the Control Panel opens

      If you are in the Classic view:

      1. Double-click on the Folder Options icon.
      2. Select the View tab.
      3. Under Hidden files and folders, make sure Show hidden files and folders is selected (click it if it is not).
      4. Click OK.

      If you are in the Control Panel Home view:

      1. Click the Appearance and Personalization link.
      2. Under Folder Options, select Show hidden files or folders.
      3. Select on the View tab
      4. Under Hidden files and folders, make sure Show hidden files and folders is selected (click it if it is not).
      5. Click OK.

2. In the Acrobat 9 PDF Portfolio window, click the Home icon in the toolbar to return to the home view of all folders.
3. Find the folder for the language you want to install, and double-click it to open the layouts folder. The language must be the same as your Acrobat 9 installation.
4. Hold the Ctrl key on your keyboard and select all .nav files in the layouts folder.
5. Go to the Start menu on your computer and select Computer.
6. Browse to this folder location:
   <system drive>:\Users\<username>\AppData\Roaming\Adobe\Acrobat\9.0\Navigators
7. If you do not see the Navigators folder, create a new folder called Navigators.

8. Drag the selected .nav files from Acrobat 9 to this location in Windows Explorer.

To install for Mac OS®

1. In the Acrobat 9 PDF Portfolio window, click the Home icon in the toolbar to return to the home view of all folders.
2. Find the folder for the language you want to install, and double-click it to open the layouts folder. The language must be the same as your Acrobat 9 installation.
3. Hold the Command key and select all .nav files in the layouts folder.
4. Open Finder.
5. Browse to this location: /Applications/Adobe Acrobat 9 Pro/Adobe Acrobat Pro
6. Hold the Ctrl key and select the Adobe Acrobat Pro application. Choose Show Package Contents.
7. Browse to this folder location in the Adobe Acrobat Pro application: /Contents/Resources/en.lproj/Navigators
8. Drag the selected .nav files from Acrobat 9 to this location in Finder.
9. If prompted to replace the existing files, choose Replace.

To verify that the PDF Portfolio layouts were successfully installed

1. Restart Acrobat 9.
2. Select File > Create PDF Portfolio.
3. In the Edit PDF Portfolio panel under Choose a Layout > Basic Layouts, you should now see these navigators:
    a. Basic Grid
    b. Grid with File Preview
    c. Grid with Sidebar
    d. Grid with Size Options
    e. List with File Preview
    f. On an Image
    g. Revolve
    h. Sliding Row
    i. Sliding Row with Sidebar
